

Wedding Day TIMELINE

Planning a wedding timeline is crucial for ensuring that your big day runs smoothly from start to finish. By starting the planning process early, prioritizing key events, involving vendors, remaining flexible, and communicating clearly with all parties involved, you can create a timeline that reflects your vision and minimizes stress on the day. For added convenience, consider using this timeline below as a template to help structure your timeline. For instance, if your wedding ceremony is set to start at 3 PM, adjust the template accordingly to allocate time for pre-ceremony preparations, post-ceremony celebrations, and everything in between. With careful planning and organization, you can create a timeline that ensures your wedding day is a memorable and joyful occasion for everyone involved.

800 AM	Hair & Makeup Arrives	600 PM	Cocktail Hour
