

Framework WEDDING SHOT LIST

As you gear up for your magical day, let's chat about the significance of a wedding day photo shot list. Picture this: a curated collection of moments that matter most to you, capturing the essence of your unique love story. While I'm all about those candid, genuine shots that showcase your personalities, having a shot list ensures we don't miss a beat. Your eclectic style, non-traditional rituals, or love for handmade details deserve to be beautifully documented. Whether it's that special full moon ceremony or the joyous, laughter-filled moments with your beloved pets or loved ones, a shot list helps us weave these elements seamlessly into your wedding album. Let's make sure every detail that makes your day uniquely yours is captured with the same love and care you've put into planning it!"

Here are few ideas to get you started. Keep in mind, you will also want to put together an additional photo shot list for any group photos..
